541-663-3330

Nurse Practitioner,

Katherine Pfister-Minogue

RN, ANP, PhD

Staffed and Operated by  
Center for Human Development, Inc.

## ABOUT SCHOOL-BASED HEALTH CENTERS

School-Based Health Centers deliver quality, affordable, cost-effective health care and enjoy broad community support.

They are an investment that returns benefits to our schools, families, communities and, most of all, our youth.

The School-Based Health Center at La Grande High School has been in operation since 1986. CHD will be opening another SBHC to serve the Union School District in 2011.

## WHAT IS A SCHOOL-BASED HEALTH CENTER?

A school-based health center is a clinic located on a school campus, operated by a medical sponsor, and staffed by a Registered Nurse, a Health Assistant and a Nurse Practitioner.

The School-Based Health Center at La Grande High School is sponsored by the Center for Human Development, Inc.

# Center for Human Development SCHOOL-BASED HEALTH CENTERS

## WHO HAS ACCESS TO THE SBHC?

All students attending school in the La Grande School District are eligible to receive care. We also accommodate staff members and their families.

## ARE APPOINTMENTS NEEDED?

Appointments are encouraged whenever possible. Walk-ins are always welcome.

## COST FOR SERVICES

School-Based Health Centers are funded through third-party insurance, Medicaid, grants and public funds. Providing us with your insurance coverage information allows us to bill your insurance and reduces our need for public funding so we can provide service to as many students as possible.

You are not responsible for any out-of-pocket expenses. If you are uninsured, or your insurance does not cover services received, the cost will be covered by the CHD SBHC program funds.

## CONFIDENTIALITY NOTICE

All services are confidential. However, if we feel a student is in danger of hurting themselves or others (OAR 309-33-200), or if abuse of any kind is suspected (ORA 419B-010; 419B015) we are required by law to report this information. Animal bites and certain communicable diseases must also be reported (ORS 433-004; OAR33-14-000).

## SBHCs FOLLOW OREGON LAW

According to Oregon Law, students age 15 and over may access all services for themselves. Oregon State Law also permits youth age 14 and older to seek mental health and alcohol and drug services without parental permission (ORS 109.675). Oregon State Law allows students of any age to receive care for sexually transmitted diseases and birth control information and services. (ORS 109.641).

In order to receive government funding Center for Human Development (CHD) is required to charge for services it provides to the public. However, no one will be denied clinical services because of an inability to pay. CHD does not discriminate on the basis of race, color, sex, religion, national origin, family status, age or disability. For further information about this policy, contact:
